Marrickville Council

Jackie Loeb is a great singing performer who knows how to steer her unique, but very warm and charming, vocal style around a variety of different musical flavours to great effect.

Sydney Star Observer

One of the top five comics.

The Sydney Morning Herald

Loeb is, literally, a laugh a minute, but pointedly so. If visual art, literature and music can serve as powerful and influential political, social and cultural commentary so can comedy. But only if it's this well-conceived.
