techniques to successfully strengthen one's mindset and sustain long-term performance.

Out the Back: The Courage to Commit

Discover how a 10-year-old boy, terrified of the ocean would go on to become one of the world's best Big Wave Surfers. A story so inspiring that it was developed into the 2x AFI award-winning movie Fighting Fear narrated by Hollywood superstar Joel Edgerton.

Key Takeaways:

- Learn how to easily adapt, react, and capture opportunities in high-risk environments.
- Discover counter-intuitive techniques to disrupt negative mental perceptions to naturally increase innovation, drive and focus.
- Easily tap into "the zone" to maintain ultimate productivity and long-term sustained performance.

Wipeout: Surviving the Impact Zone

Mark knows all too well the crippling effects of stress and anxiety. While in Tasmania, fifteen feet in front of a cliff in cold, shark infested waters, Mark hit the reef and instantly blacked out. Terror engulfed every inch of his being. Neck braced and hospital ridden, he didn't know if he would ever surf again. At that moment Mark made a decision never to allow stress and anxiety to put him in this position again.

Key Takeaways:

- Learn how to easily adapt, react, and capture opportunities in high-risk environments.
- Discover counter-intuitive techniques to disrupt negative mental perceptions to naturally increase innovation, drive and focus.
- Easily tap into "the zone" to maintain ultimate productivity and long term sustained performance.

Capitalising on the Next Wave of Opportunities

In the ocean, Mark must always assume that conditions can-and will-unexpectedly change, violently and fast. Mark and his team must stay hypersensitive to change, continually reassessing conditions and refocusing goals and strategies.

Key Takeaways:

- Learn how to easily adapt, react, and capture opportunities in high-risk environments.
- Discover counter-intuitive techniques to disrupt negative mental perceptions to naturally increase innovation, drive and focus.

Manage Change

Mergers, buy-outs, downsizing: These are just a few of the ways in which companies can transform literally overnight. While these moves often help a company remain competitive, they also result in profound changes to organisational structure and other disruptions to the status quo. Change can trigger our most basic survival instincts, and even when physical survival is not an issue, it can feel as if your life is on the line whenever things change. Our known existence, whether we liked it or not, is replaced by an unknown one, and we become fearful and disoriented. Helping your employees deal with the Stress and anxiety that comes along with such changes is crucial.

Key Takeways

- Techniques to develop Resilience and Courage.
- The benefits of a growth mindset.
- The importance of commitment to implementing Change.

The Next Wave Workshop

The Next Wave is a video-based "choose-your-own-adventure" teaming session that follows the exciting career of professional big-wave Surfer, Mark Mathews and his team.

The audience is grouped into professional surf teams, including the roles of photographer, swell forecaster, water safety crew, manager, publicist and surfer. You'll be transported out into the ocean (virtually) where you will face a series of exciting scenarios, have to make difficult decisions, and either reap the rewards or face the consequences of those decisions.

In addition to delivering the interactivity and excitement that conference audiences crave. The Next Wave program can be customised to focus on your selection of the skill development modules.
