After growing up on a small farm in Sweden, aged 22 she found herself in Australia, half a world away from family and friends, with little money and no idea what to do with her life.

Kristina sold all she owned to create and build a globally loved Swedish design and stationery business, kikki.K from the ground up, to have 120 award-winning retail stores in 5 countries, a passionate team of 1,500, a reputation for innovation and service excellence, an online store serving stationery and design lovers in over 150 countries and total revenue of around \$650m.

For over 20 years from start-up to mid 2021, Kristina won the hearts and minds of millions the world over, as the creative force and personality behind what was an authentic, founder and purpose led brand.

After a tumultuous experience through the Covid pandemic which forced closures of her stores -

Kristina lost control of kikki.K and parted ways in heart-breaking circumstances. A riveting story with many learnings.

She has since bounced back - on a mission to inspire and empower 101 million people the world over to discover and chase their dreams.
