

Brad Smith

One of Australia's most successful entrepreneurs

Brad is the founder of braaap Motorcycles. “braaap” is the only Australian motorcycle company and one of the country’s most exciting emerging brands. braaap has been named National Retailer of the year for four years. The multi-million dollar company has grown exponentially in what others say is the world’s toughest time for the economy.

Smith was knocked back by over 50 manufacturing plants and 20 banks/financiers during the start-up of braaap. He is the son of parents who came from government housing, and had no financial help or experience. This is a story of persistence, faith and courage.

Brad takes you on his journey and shares the stories and tools he used and still uses to lead and inspire his team, measure, question and grow his company into the multi-million dollar award winning company it is today.

“Getting laughed out of the office of over 50 motorcycle manufacturing plants taught me some hard and fast lessons about sharing vision and persistence,” he said.

Nine years on, braaap works with major manufacturers from all over the world to produce arguably the best motorcycle of this type. It’s the only dirtbike on the planet with lifetime warranty and the first production bike to win a title at the World championships.

braaap has grown into a multi-million dollar, multifaceted empire as a manufacturer, a distributor, company owned retail network, franchise system, dealership network, online retailers and of course the consumer lending company Brad created to make the cost of buying a motorcycle more accessible with low weekly payments from \$3 a day.

An admirable example of drive, passion and an appetite for growth, he will revolutionise the way you navigate growth and solve problems in your business.

Brad Smith talks about:

The below topics are Brad’s most frequently requested, however he tailors all presentations

specifically to the audience and industry he is to present to. Brad works with the event organisers in the lead up to the event to ensure his presentation achieves their desired outcomes and results.

Growth

Brad reminds us that the areas of our lives that we are most passionate, the areas of our lives that make us feel most alive are the areas of our lives that we are growing. Growth is the essence of life. This session inspires us to create consistent and compounded growth in our lives and organisation.

Passion

Passion comes from how you do it, not what you do. Find Passion in right now. Brad talks about how no one gets to do the things they love every day. The secret to growth is not doing what you're passionate about, but being passionate about what you're doing. Passion is an attitude.

Vision

Vision is the corner stone to growth. Vision overcomes challenge. We all have a visionary inside of us. Brad shares stories and strategies to solidify the vision you have of yourself and your organization.

Be Afraid

Your ability to live outside your comfort zone is directly proportional to your ability to grow as a person. Brad's 'Be Afraid' session inspires you to embrace fear, to make fun of failure and to step outside your comfort zone.

Yes

"It is always YES in the end, if it's not a yes, it's not the end" This session equips you with the tools and skills to deal with rejection, to overcome "NO" and to move towards the outcome. Brad shares how he got laughed out of the office of over 50 Motorcycle manufacturing plants before he found a manufacturing partner.

Do More Than Your Paid To Do

The habit of doing more than you're paid to do is the science of growth. Reward follows value. Brad speaks about why we would want to do more than we are paid to do, sharing stories and lessons to inspire action from the audience.

Think

"The brain is a muscle, treat it like one." How do we feed our brain the thoughts required to grow into the people we want to become? Brad speaks about proximity and how to get in proximity of people who think at a higher level than we do, hold us accountable and push us forwards.

Client testimonials

“ Brad was fantastic - his enthusiasm and wisdom captured the audience. I think people who attended the forum will long remember and be influenced by his inspirational and grounded story

“ Brad was fantastic and everybody just loved him! His energy and enthusiasm was great and he related his presentation back to the audience in such a good way that we couldn't be happier. I think you will be getting calls from a lot of the golf clubs involved as they really enjoyed the presentation and need to drive a way forward to encourage Gen Y to play golf and Brad could certainly achieve that for him.

“ After I was advised by students on the organising committee of this year's Australian Business Week about getting you involved, I am so glad that they did because the presentation was excellent, spoken in a calm manner that did not appear as a teaching exercise but contains so much useful information that the students can use in their own business plans. Also on a personal note, I was so glad to have the opportunity to meet you and work with you on this presentation, because you are an inspirational young business person whose down to earth personality can easily bring out the best in people

- **sheepISH Productions**

“ ...Since Renee put me onto Brad, we have been communicating on the phone regularly with some mentoring conversations. Yesterday I had the opportunity to hear him speak at Cosgrove High to about 80 teenagers from disadvantaged backgrounds. They hung on every word! I won't recommend speakers until I see them in action...and Brad is fabulous!!!! He is not loud and brash...just very authentic with lovely Tassie family values. This 21 year old now employs his Mum, Dad (who went back to TAFE to become a mechanic) and his sister... in his businesses. His accomplishments, philosophy, humility and discipline...are awesome! He's also very suitable for corporate audiences (they would wet their pants hearing this story from someone soooooo young and yet so wise!) ...This is a young man who can shake we older people up!

- **Robyn Moore**

“ A real pleasure hearing you speak and I thoroughly enjoyed your presentation. We had Verne Harnish yesterday and although he is rated in the world as one of the top 10 best minds, he did not receive a standing ovation like you did. When you are next in Perth, let me know as some of the guys would like to buy you dinner and thank you for your outstanding efforts. Stay

well and will look forward to getting my first braaap motorbike."

Brad has a level of vitality and 'can do' approach that is infectious. He has the ability to engage at all levels and inspire others to take up and make his, and others, dreams a reality.
