“ Raw Metal is an extraordinary group and what they do is different from anything we've witnessed before. They cleverly defy any traditional tap dance origins in displaying their mastery by combining funk and the art of tap dancing. Almost superhuman in stance, Raw Metal's performance concerns themselves with conjuring grace with pace-setting numbers. This troupe somewhat blurs the boundaries between the Olympics and performing arts, the athletic and the comic - truly entertaining.

“ Raw Metal's idiosyncratic beat makes it hard for audiences to keep still. It's been dubbed Funk Tap, a noisy, energetic dance which leaves audiences almost as exhausted as the

performers.

**- Canberra Times**

“ Its caffeine fuelled double espresso funk tap - technically challenging and bouncy enough to make anyone's blood race. It would be exhausting to watch if it wasn't so damn energizing.

**- The Courier Mail**

“ Just wanted to let you know what fantastic performances the guys from Raw Metal gave us. Feedback indicated how delighted the community was to see such vibrant talents which appealed to all ages. They are energetic, entertaining and absolutely wonderful. I hope they enjoy great success in the future.

**- Australia Fair**

“ The guys from Raw Metal were not only great performers but were awesome people. They were very flexible with us and were very friendly. They gave a very uplifting performance.

**- Oxfam Community Aid Abroad**

“ I found Raw Metal to be excellent in their professional approach. They were easy to work with and completely accommodating when due to time restraints we had to cut short their performance. They quickly restructured their show and went on to blow the audience away

**- Bradyworks**

“ Energetic fun and something different. The guys were relaxed and easy to work with. Well done!
